ARTICLE 14 – LIABILITY FOR DAMAGE

14.1 In the case of non-international travel, our liability will be determined by applicable law.

14.2 International travel, as defined in the Convention, is subject to the liability rules of the Convention. Articles 14.3 and 14.4 below apply only where the Convention applies.

14.3 In accordance with the Convention there are no financial limits to our liability for death, wounding or any other bodily injury suffered by a Passenger. We have strict liability up to 113,100 SDRs unless we can prove that the damage was caused by, or contributed to by, the negligence of the injured or deceased Passenger. For claims in excess of this limit, we may be exonerated if we can prove that we and our agents took all necessary measures to avoid the damage or that it was impossible for us or them to take such measures.

14.4 Where the Convention applies, we will without delay, and in any event not later than fifteen (15) days after the identity of the natural person entitled to compensation has prima facie been established, make such advance payments as may be required to meet immediate economic needs on a basis proportional to the hardship suffered. Such payment shall not be less than 16,000 SDRs per Passenger in the event of death. Making an advance payment shall not constitute recognition of liability and may be offset against any subsequent settlement. Advance payments made hereunder shall not be returnable unless:

14.4.1 we prove that the damage was caused by, or contributed to by, the negligence of the injured or deceased Passenger; or

14.4.2 where it is subsequently proved that the person who received the advance payment was not the person entitled to compensation; or

14.4.3 it is subsequently proved that the person who received the advance payment caused, or contributed to, the damage by negligence.

14.5 Subject to Articles 14.3 and 14.4 above, our liability provisions are as follows:

14.5.1 Any liability we have for Damage, will be reduced by any negligence on your part which causes or contributes to the Damage in accordance with applicable law.

14.5.2 We will be liable only for Damage occurring during carriage on flights or flight segments where our Airline Designator Code is indicated for that flight or flight segment.

14.5.3 We will not be liable for Damage to Unchecked Baggage unless such Damage is caused by our negligence.

14.5.4 We are not liable for any Damage arising from our compliance with applicable laws or Government rules and regulations, or from your failure to comply with the same.

14.5.5 Our liability in the case of Damage to Baggage shall be limited to 1,131 SDRs (or equivalent) per passenger unless you have had a declaration of higher value by check-in at the latest and paid a supplementary fee.

14.5.6 Except where other specific provision is made in these Conditions, we shall be liable to you only for recoverable compensatory Damages for proven losses and costs in accordance with the Convention.

14.5.7 We are not liable for any Damage caused by your Baggage. You shall be responsible for any Damage caused by your Baggage to other persons or property,

including our property.

14.5.8 We shall have no liability whatsoever for Damage to articles not permitted to be contained in Checked Baggage under Article 8.3, or for unsuitably packed, perishable, damaged or fragile Baggage or for minor damage to the exterior of Baggage (e.g. scratches, stains, soiling, dents) resulting from normal wear and tear

14.5.9 We are not responsible for any illness, injury or disability, including death, attributable to your physical condition or for the aggravation of such condition.

14.5.10 The contract of carriage, including these Conditions of Carriage and exclusions or limits of liability, applies to our servants, employees and representatives to the same extent as they apply to us. The total amount recoverable from us and from such employees, representatives and persons shall not exceed the amount of our own liability, if any.

14.5.11 Nothing in these Conditions of Carriage shall waive any exclusion or limitation of our liability under the Convention or applicable laws unless otherwise expressly stated.

14.6 With respect to delay we shall be under no liability except as provided in these Conditions of Carriage.

ARTICLE 15 – TIME LIMITATION ON CLAIMS AND ACTIONS

15.1 NOTICE OF CLAIMS

15.1.1 Acceptance of Baggage by the bearer of the Baggage Identification Tag, without complaint and without completion of a Property Irregularity Report at the time of delivery, is prima facie evidence that the Baggage has been delivered in good condition and in accordance with the contract of carriage, unless you prove otherwise.

15.1.2 If you wish to file a claim or an action regarding Damage to Checked Baggage, you must notify us as soon as you discover the Damage, and at the latest, within seven (7) days of receipt of the Baggage. If you wish to file a claim or an action regarding delay of Checked Baggage, you must notify us within twenty-one (21) days from the date the Baggage has been placed at your disposal. Every such notification must be made in writing.

15.2 LIMITATION OF ACTIONS

Any right to damages and/or compensation of any kind shall be extinguished if an action is not brought within two years of the date of arrival at destination, or the date on which the aircraft was scheduled to arrive, or the date on which the carriage stopped. The method of calculating the period of limitation shall be determined by the law of the court where the case is heard.

ARTICLE 16 – CARRIER'S REGULATIONS

Carriage of you and your Baggage is also provided in accordance with our Regulations which are binding upon you. These Regulations concern air carrier liability for passengers and their baggage, travel documentation, checked and cabin baggage (including the carriage of sports equipment and/or musical instruments), the carriage of children, infants and young persons, reduced mobility, blind/vision impaired passengers, pregnant or sick passengers, carriage of assistance animals and ATOL information.

AIR CARRIER LIABILITY FOR PASSENGERS AND THEIR BAGGAGE

This information notice summarises the liability rules applied by Community air carriers as required by Community legislation and the Montreal Convention 1999.

Compensation in the case of death or injury

There are no financial limits to the liability for passenger injury or death. For damages up to 113,100 Special Drawing Rights (“SDRs”) the air carrier cannot contest claims for compensation. Above that amount, the air carrier can defend itself against a claim by proving that it was not negligent or otherwise at fault.

Advance Payments

If a passenger is killed or injured, the air carrier must make an advance payment, to cover immediate economic needs, within 15 days from the identification of the person entitled to compensation. In the event of death, this advance payment shall not be less than 16,000 SDRs.

Passenger Delays

In the case of passenger delay, the air carrier is liable for damage unless it took all reasonable measures to avoid the damage or it was impossible to take such measures. The liability for passenger delay is limited to 4,694 SDRs.

Baggage Delays

In the case of baggage delay, the air carrier is liable for damage unless it took all reasonable measures to avoid the damage or it was impossible to take such measures. The liability for baggage delay is limited to 1,131 SDRs.

Destruction, Loss or Damage to Baggage

The air carrier is liable for destruction, loss or damage to baggage up to 1,131 SDRs. In the case of checked baggage, it is liable even if not at fault, unless the baggage was defective. In the case of unchecked baggage, the carrier is liable only if at fault.

Higher Limits for Baggage

A passenger can benefit from a higher liability by making a special declaration at the latest at the bag drop desk and by paying a supplementary fee of £100/€125.

Complaints on Baggage

If the baggage is damaged, delayed, lost or destroyed, the passenger must write and complain to the air carrier as soon as possible. In the case of damage to checked baggage, the passenger must write and complain within 7 days and in the case of delay within 21 days, in both cases

from the date on which the baggage was placed at the passenger's disposal.

Liability of Contracting and Actual Carriers

If the air carrier actually performing the flight is not the same as the contracting air carrier, the passenger has the right to address a complaint or to make a claim for damages against either. If the name or code of an air carrier is indicated on the ticket, that air carrier is the contracting air carrier.

Time Limitation for Action

REDUCED MOBILITY, BLIND/VISION IMPAIRED PASSENGERS, MEDICAL CONDITIONS OR PASSENGERS REQUIRING SPECIAL ASSISTANCE IN THE AIRPORT

(Notice Pursuant To Regulation (EC) No. 1107/2006: Carriage of Disabled Persons and Persons with Reduced Mobility)

Passenger with Reduced Mobility (PRM) Restrictions

For safety reasons Jota Aviation can only carry a maximum of two passengers per flight who have either reduced mobility, or are blind/visually impaired travelling with a guide dog or alone or require special assistance at the airport or onboard. This restriction is in place to prioritise the safety of disabled or reduced mobility passengers as well as that of other passengers, particularly in any emergency evacuation situation.

The final decision relating to any aircraft safety issue always rests with the Captain.
Reservation of Special Assistance

Passengers with reduced mobility can reserve their required special assistance through their Charterer or by contacting Jota Aviation direct. On arrival at the airport they should go to the designated airport special assistance desk/area. Passengers requiring special assistance are requested to arrive at the airport no later than 1 hour 30 minutes prior to scheduled flight

departure to obtain the required assistance and complete pre departure procedures. Check-in/Bag drop desks close 40 minutes prior to scheduled flight departure. Please retain your Boarding Pass or airport receipt for production on arrival at your destination airport to obtain pre-booked assistance.

Jota Aviation will make all reasonable efforts to facilitate passengers who do not pre-advise their requirements in advance and ensure that the relevant passenger information is provided to the airport authority special assistance company.

Reduced mobility passengers who have pre-advised their condition should arrive at the boarding gate at least 30 minutes prior to the flight departure. They will be boarded, with travelling companions, after general boarding has been completed.

Travelling with an Accompanying Person

If passengers are not self-reliant then we require them to travel with an able bodied accompanying person aged 16 and over.

Guidelines

We require an able bodied accompanying person aged 16 and over to accompany a disabled person when it is evident that the person is not self-reliant and could pose a risk to safety.

A passenger is deemed self-reliant by reference to all of the categories below.

- Passengers must be capable of using toilet facilities unaided
- Passengers must be capable of feeding themselves unaided
- Passengers must be capable of administering their own medicines and medical procedures unaided.

Where a disabled/reduced mobility passenger is assisted by an accompanying person, all reasonable efforts will be made to give such person a seat next to the disabled/reduced mobility passenger.

Seat allocation for disabled/reduced mobility passengers:

In accordance with regulatory requirements (EU-OPS 1.260), our flight crew must ensure that access to emergency equipment and evacuation of the aircraft in an emergency will not be impeded before allocating seats.

The following passengers may not be seated in the vicinity of an exit door where they could obstruct emergency exits, impede the crew in their duties, obstruct access to emergency equipment or hinder aircraft evacuation: passengers with reduced mobility, which may include but not be limited to someone with a mobility or sensory impairment, and passengers whose physical size would prevent them from being able to move quickly.

The final decision regarding seat allocation in the cabin is made by Jota Aviation's In-flight Cabin Services Supervisor.

Blind or Vision Impaired Passengers

Passengers travelling with a guide/service dog must carry an official document, confirming that the dog is a fully trained or under the control of a trainer. Please note that under Regulation (EC)

No. 1107/2006 'Emotional support dogs' are not considered as service dogs and cannot be accepted.

Blind or vision impaired passengers who are not self reliant as per the above guidelines must travel with an able bodied accompanying adult aged 16 or over.

No PRM (Passenger with Reduced Mobility) limit applies if a blind or vision impaired passenger travels with a sighted adult aged 16 or over (on a one to one ratio)

Deaf or Hearing Impaired Passengers

Deaf or hearing impaired passengers who meet all of the above Guidelines may travel without an accompanying person.

Deaf or hearing impaired passengers requiring no additional assistance are not subject to the above PRM Restriction.

Assistance In-flight

Our cabin crew will be happy to provide water to help you take oral medication. However, they are not allowed to provide medical services such as administering injections.

For safety reasons cabin crew cannot lift passengers or assist with personal hygiene.

If you require these types of assistance you must be travel with an able bodied accompanying passenger aged 16 or over

Essential Medical Equipment/Supplies

If for medical reasons, passengers need to inject themselves during the flight (e.g., diabetics) they are permitted to carry syringes in the cabin. They will be asked to produce appropriate medical evidence (a doctor's letter will suffice) when they check in or at security. This should be kept with them at all times. Further information in relation to the carriage of medical equipment is available from Jota Aviation.

For the carriage of medication in your cabin baggage please bring the prescription with you to allow security clearance

Passengers who need to carry essential medical equipment/supplies in addition to their hand or checked baggage allowance should contact us.

Information in the event of refusal to travel

If we are unable to carry a disabled/reduced mobility passenger, we will inform the person concerned of the reasons for refusal of carriage.

Battery Operated Wheelchairs and other PRM Mobility Equipment

Passengers with reduced mobility who are travelling with an electric wheelchair are required to advise us at least 48 hours before travel of the weight and lowest collapsed height of the wheelchair. Passengers are also asked to bring the wheelchair operating instructions to the airport.

Electric Wheelchairs must comply with the following to be accepted for carriage:

The wheelchair battery must be dry/gel cell ONLY

The dimensions of the wheelchair when collapsed must not exceed 81cms (height), 119cms (width) and 119cms (depth)

The battery power must be isolated and exposed terminals protected from short circuiting, to protect the wheelchair/mobility aid from inadvertent activation, please remove the key, deactivate using the joystick or deactivate using an isolation switch or buttons, or other isolation mechanism (such as Anderson Connector Plug).

Passengers with reduced mobility are entitled to transport two pieces of mobility equipment, free of charge, for example a wheelchair and a walking frame. The 30kg single item weight limit does not apply to mobility equipment. Due to space and weight restrictions we can carry a maximum of two electric wheelchairs/mobility scooters per flight and then only on our BAe 146-200 jet aircraft. No wheelchairs are permitted to travel in the aircraft cabin.

We recommend that passengers obtain adequate travel insurance cover for their mobility aids as an airline's liability is limited under the Montreal Convention 1999.

Oxygen

For safety reasons, Jota Aviation does not permit passengers to bring their own oxygen on board. If oxygen is required for use during the flight it must be reserved at the latest 7 days prior to travel or directly with Jota Aviation for a reasonable charge. Safety regulations limit oxygen requests to one per flight. Passengers requiring oxygen must carry a letter from their doctor written in English confirming that they are fit to travel; that they do not require a continuous supply of oxygen for more than 250 minutes at a flow rate of 2 litres per minute and that the oxygen we provide is suitable for them. Passengers will not be accepted for travel without this letter.

Guide/Service Dogs

Guide/Service Dogs are accepted on all Jota Aviation flights within the EU/EEA flights operated by BAE RJ aircraft subject to the possession of a valid Pets Passport. It is each individual owner's responsibility to ensure that the Pet Passport presented is up to date and complies with the vaccination and treatment requirements of the destination country.

Guide/assistance dogs travel in the aircraft cabin and must sit on the floor at the passenger's feet. A maximum of four guide/service dogs are permitted per flight. The dogs, together with containers and food, will be carried free of charge in addition to the normal free baggage allowance.

Any passenger wishing to travel with their guide/assistance dog on board should pre-advise us at least two weeks prior to travel. Please note that failure to pre-advise may result in the service being unavailable on arrival at the airport and you being unable to travel on your flight.

INFECTIOUS DISEASES AND SKIN CONDITIONS

All air carriers have the right to refuse to carry passengers with conditions that may worsen, or have serious consequences, during the flight. If there is any concern or indication that a passenger could be suffering from an infectious disease/skin condition then the airline may require medical clearance. Passengers travelling with any visible skin conditions (which may include but not limited to the below) are recommended to travel with a medical certificate or doctor's letter confirming that they are fit to fly.

- Rubella: Passengers can be accepted for travel four (4) days after the appearance of the rash.
